

The XL
gets a fresh
coat of green.

INDIGOXL

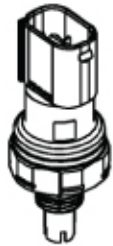

Available in Bifuel (Petrol+CNG) and Diesel (CR4/TDI)

Easy on the environment. Easy on your pocket.

What if all your good wishes to help the environment came true with the turn of a key? Presenting the BS4 compliant Indigo XL CNG. Ready with a factory fitted CNG tank, the Indigo XL saves the planet as easily as it saves money. All this backed with the confidence of a Tata Motors warranty. To make your CNG experience as convenient and safe as possible, the Indigo XL CNG is designed with features and accessories that truly make it the 'green car'.

Safety

INTEGRATED PRESSURE AND TEMPERATURE SENSOR

An integrated pressure and temperature sensor mounted on the gas rail provides CNG temperature information to the Engine Control Unit. The High Pressure Sensor provides the tank pressure information which helps detect leakages and avoid accidents. This also helps in knowing when the tank is empty.

SAFE FUEL SYSTEM

An Independent Pressure Relief Valve with a fusible plug ensures release of excess pressure. An electronic shut-off valve on the tank and an excess flow control Valve provide better safety during collision/accident.

BODY-SIDE MOUNTED NGV TYPE CNG FILLER VALVE.

Unlike most cars that have the CNG filler valve under the hood, the Indigo XL saves time on filling and ensures better safety with its body-side mounted valve. Its integrated filling cap with starting system interlock ensures safety during filling.

CNG REGULATOR

An integrated filter at the high pressure inlet and the low pressure outlet ensures system cleanliness for trouble free operation and makes your car easy to maintain.

Convenience

EASY FUEL SELECTION

A convenient On-Off changeover switch helps easy fuel selection while driving.

FUEL MODE INDICATOR AND CNG MASS DISPLAY IN INSTRUMENT CLUSTER

Keep track of your fuel availability, whether in CNG or Petrol mode with the same indicator. An analog display below the RPM meter displays CNG tank status when you switch to CNG mode. The LCD display in the instrument cluster also shows the CNG mass in kg.

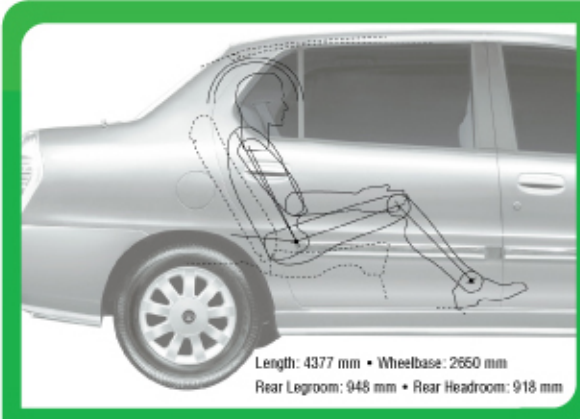

EASY SPARE WHEEL REMOVAL

Large boot space to accommodate the CNG cylinder and a spare wheel. The spare can be removed without any inconvenience.

Features

A limousine for maximum comfort.

Unequaled comfort in the rear seat with center armrest.

Rear AC and mobile charging point at the rear.

Ample 450 Litres boot space.

Customized for taxi application.

- **Factory-fitted CNG**
- Powerful 100 PS petrol (bifuel CNG) engine
- Most fuel efficient CR4 engine
- Proven, rugged TDi engine in BS3
- Luxurious beige interiors
- Internally adjustable ORVM
- Body coloured bumpers
- Clear lens head lamps and tail lamps

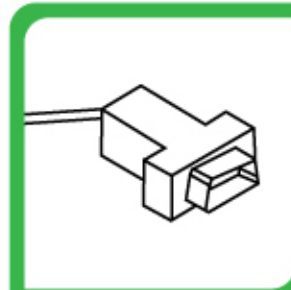

Clean body surfaces mean ample space for advertising.

Suitable for roof rack mounting.

Center console ideal for fitment of radio taxi equipment like GPRS, taxi meter, printer.

Wiring harness compatible for fitment of add-on radio taxi equipment.*

High capacity battery to perfectly suit your needs for fitment of add-on equipments.

*Refer manual for installation of add-on fittings from Tata motors.
