

TATA MOTORS

A NEW BREED OF LUXURY.

ARIA

Luxury that thrills

THE THRILL OF LUXURY.

We at TATA Motors set out to transform the way the world perceives luxury. Taking it out of its passive haughtiness, and loud opulence. The TATA Aria was born of that endeavour. It is a marvel of automotive engineering, that's magnificent but not extravagant. Indulgent, and thoughtful. It's the bigger picture, with every detail in place. It is the coming together of old world comfort and new age wizardry. It's powerful. Precious. Poised. This is the TATA Aria. This is the new face of assertive refinement.

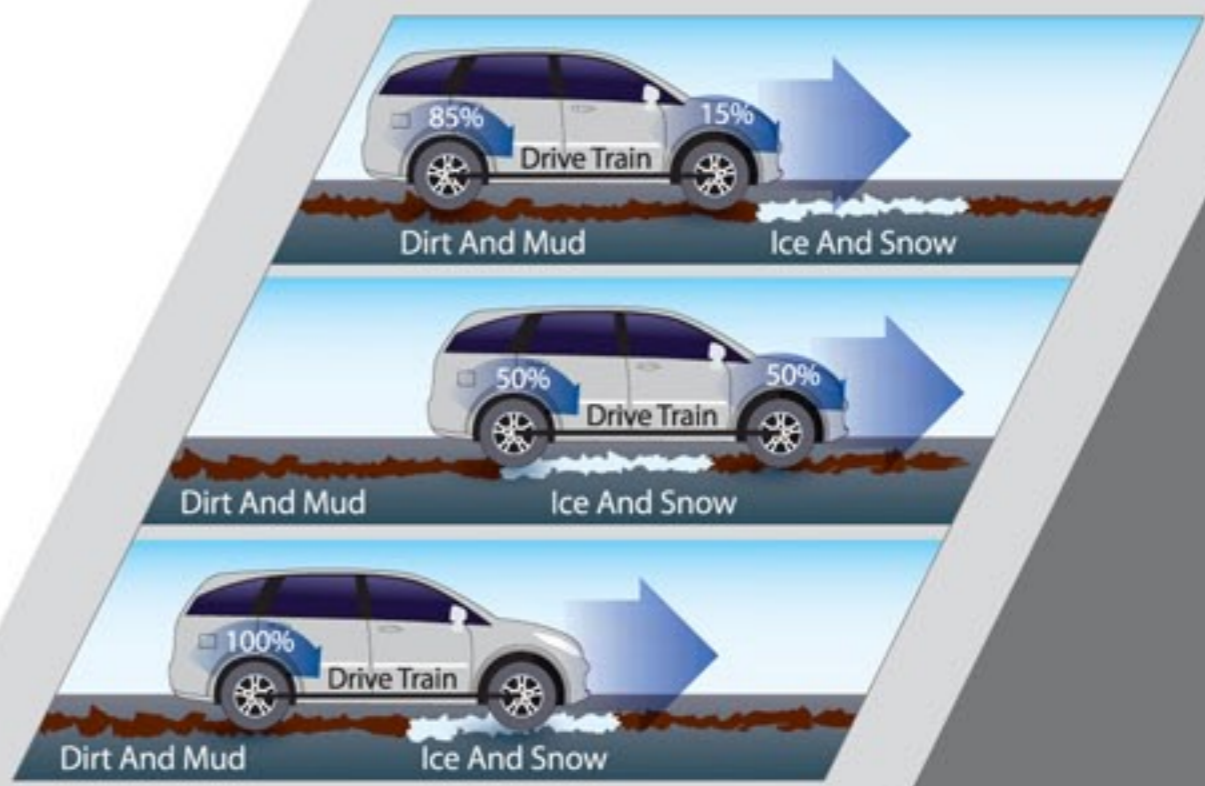

SEIZE THE REINS OF POWER.

2.2 Dicor 140 PS Power and 320 NM Torque, BS IV

Absolute power is indulgent. And liberating. Lift the hood on the Aria, and you'll find a 2.2 Dicor engine throbbing with Variable Turbine Technology, 16 valves and twin Overhead camshaft with 32 bit ECU, generating 140 PS Power and 320 NM Torque. That's enough power to send any Monarch into a tizzy.

CRUISE CONTROL

RED CARPET ROADS.

4x4 Adapterra with Torque On Demand

Go anywhere with Aria's All Wheel Drive with Torque on Demand. It not only gives you the off-road advantage, but also ensures stability by offering great directional control in normal driving conditions too. Traversing any environment with effortless ease.

Cruise Control

Put your feet up and relax. With the Aria's Cruise Control you can now set your cruise speed and enjoy a relaxed drive.

THE LAP OF LUXURY.

Seven Ergonomically Designed Leather Seats

Sink into the Aria's plush Leather seats to experience refined grace. With interiors that seem to be commissioned by royalty, the TATA Aria comes with full front leather seats in Dark Graphite or Plum. The inserts on the dashboard, the door trims and the leather wrap for the steering wheel add to the innate sense of sophistication within. This is your portal into another world.

THERE'S A PLACE FOR EVERYTHING.

*Seating Flexibility and Flat Bed,
Sliding 2nd Row Seats*

There's no such thing as too much space. With the generous stowage and flexible storage in the TATA Aria, you'll never run out of space. The Split fold 2nd and 3rd row seats fold flat, completely, or partly, into the floor. Making enough room to accommodate your world.

LOSE YOURSELF, NOT YOUR WAY.

Satellite Navigation System

Find your way across the featureless Sahara, or a congested cityscape, with the Aria's ingenious navigation system as your guiding light. With a simple interface and unparalleled coverage, finding your destination will now be a leisurely stroll through the park.

GPS NAVIGATION SYSTEM

AUTO CLIMATE CONTROL

CHOOSE YOUR WEATHER.

Auto Climate Control

When you travel in the TATA Aria even the climate is under your control. The electronic climate control automatically maintains a steady temperature once set. And not just for the usually privileged few seated in the front, but in every corner of the Aria. Ensuring that, inside here, the weather is always fine.

THERE'S NO LOOKING BACK.

Reverse Guide Camera

The TATA Aria has an automatically activated Reverse Guide Camera that shows you a real time video of the range behind your car while you reverse. Ensuring that you never look back in regret.

REVERSE GUIDE CAMERA

GLOVE BOX CHILLER

KEEP YOUR COOL.

Glove Box Chiller

Be it chocolate or a refreshing beverage, the Glove box chiller ensures that they stay the way you like them. Chilled. Cheers to that.

WON'T KEEP YOU IN THE DARK.

Darkness Sensing Auto Headlights

Whatever journey life offers, you can't run with a blinder. A glimmer is enough. Darkness sensing Auto head lights are much more than that. They come ON with the entry into Tunnel or Low ambient light and show you the way. So you never drive blind-folded.

RAIN SENSING AUTO WIPERS

AN EYE ON THE SKY.

Rain Sensing Auto Wipers

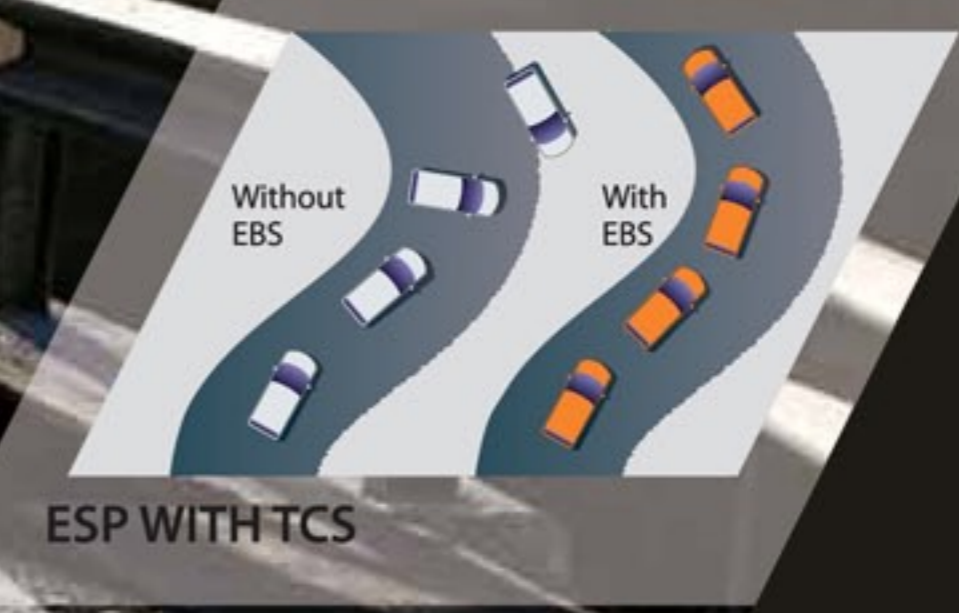

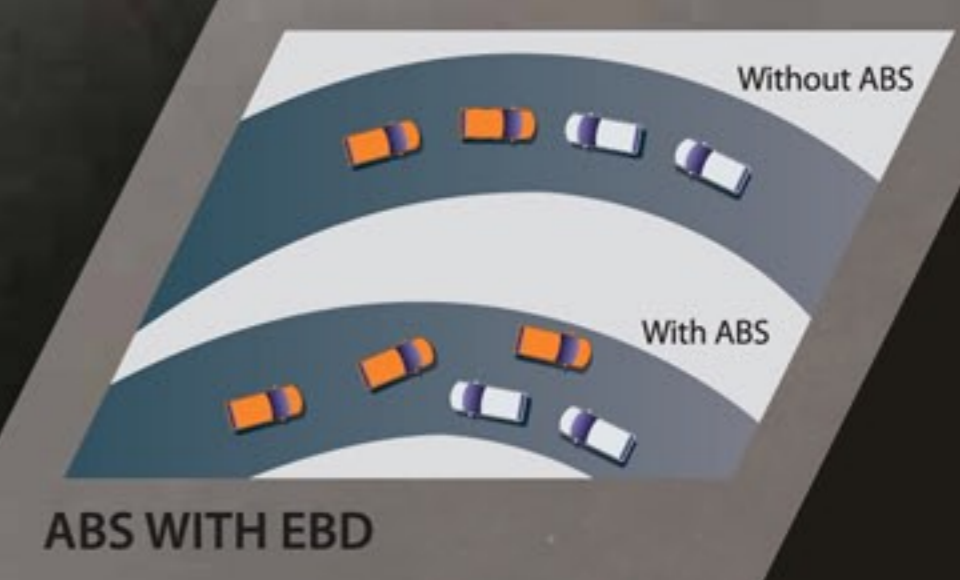

However unpredictable the weather, you can predict one thing. The Aria's Rain Sensing Auto Wipers will never be caught off guard. Ready for any weather, they automatically start operating on sensing rain and depending upon the intensity, adjust their speed. You'll never have the rain in your face.

GRINDING STOPS AREN'T GRINDING ANYMORE.

*Antilock Braking System with Electronic
Brake Force Distribution and All Disc Brakes*

When it came to the Aria's braking system, we pulled out all stops. With a shuttle-load of braking technology, the Aria boasts of optimum braking efficiency at all times. The brakes will never jam or heat. Neither will your car skid or roll. So when you need to come to a complete stop, the Aria will simply oblige. No drama. No fuss. Keeping you in complete control, at any moment.

SHARP TURNS LOSE THEIR EDGE.

*Electronic Stability Program
and Traction Control System*

The TATA Aria can read your mind, and the road. So when you encounter a surprise in your path, and swerve to avoid it, ESP makes coming back on track easier. It electronically reads your driving inputs and scans the vehicle's behaviour to manage the braking system and engine. Thus avoiding skidding, and a mishap. Now the only surprise on the road, is the TATA Aria's agility.

HERE TOO, AIR SUSTAINS LIFE.

Six Airbags

Every life inside the Aria is precious. Reason why, we have six airbags, instead of the standard two. There's the standard airbags for the driver and the front passenger. In addition, there's the Side airbags, and the Curtain airbags. Putting air to some good use. Covering you from every side.

PROTECTIVE COCOON.

*Hydroform Body, Rigid body
construction and Crashworthiness*

No harm can come to you. Thanks to the new technique of Frame Building, with Hydroform Technology. This allows excellent design flexibility which results into higher Frame Stiffness, and Torsional Rigidity. Keeping you and your family safe and secure.
